

Shawn Li

Vice President & President of BorgWarner China and Vice President & General Manager of PowerDrive Systems, China

Shawn Li was appointed Vice President & President of BorgWarner China in July 2024. In this role, Li oversees all corporate functions in China and chairs the China Steering Committee, consisting of all China business leadership. He also serves as Vice President & General Manager for PowerDrive Systems, China.

Since joining BorgWarner in 2003, Li has held roles of increasing responsibility in engineering, sales, program management, plant management and general management in both the United States and China.

Prior to his time at BorgWarner, Li worked in engineering for Cummins Inc.

Li holds a doctorate in engineering from Purdue University. He earned master's degrees in engineering from Ohio State University and business administration from the University of Chicago, as well as a bachelor's degree in engineering at Tsinghua University. Additionally, Li has published about twenty technical papers, and he holds four patents in the United States.
